

EMERGENCY FIRST AID AT WORK

Course Overview

This qualification is aimed at learners who wish to become emergency first-aiders in the workplace. This qualification meets the requirements for training emergency first-aiders in those organisations that have identified that staff need to be trained to this level within their first-aid needs assessment.

Topics covered include the role and responsibilities of a first aider, being able to manage an unresponsive casualty who is not breathing normally, being able to manage a casualty with external bleeding and being able to manage a casualty with a minor injury.

To complete this qualification learners should expect to undertake 7 hours of learning, with a minimum contact time, excluding breaks of 6 hours typically over 1 day. Learners are assessed by a practical demonstration and written/oral questioning and an examination.
